

California Department of Fish and Game Deer Management Program 2008 Deer Zone Information

Wildlife Branch
1812 9th Street Sacramento, CA 95811

General Deer Hunting Information For **ZONE X-3b** **and** **Area-Specific Archery Hunt A-6** (No Additional Hunts Scheduled)

GENERAL INFORMATION FOR DEER HUNT ZONE

This information sheet has been prepared to assist deer hunters applying for, or planning to hunt in, Zone X-3b located in portions of Lassen and Modoc counties. The following information should be useful to hunters for archery season (A-6; Zone X-3b Archery Hunt), Zone X-3b general season and any "additional hunts" within this geographic area. For more specific information or additional questions regarding this area, contact the following Department office(s):

Northern Region Office (Region 1), 601 Locust Street, Redding, CA 96001 (530-225-2300)
encompassing Del Norte, Humboldt, Lassen, Mendocino, Modoc, Shasta, Siskiyou, Tehama and Trinity counties.

REGULATIONS

Laws and regulations are designed to conserve wildlife and to provide for an equitable distribution of game mammals. The hunter who knows the laws and regulations can enjoy the hunting experience more. All hunters should read and be familiar with the current hunting regulations available online at:

<http://www.fgc.ca.gov/regulations/current/mammalregs.asp>

The 2008 deer hunting regulations specific for Zone X-3b (general season tag), Area-Specific Archery Hunt A-6 (archery season only tag), and any additional hunts are at the end of this sheet.

To hunt deer during the archery season in Zone X-3b, hunters must possess an A-6 hunt tag (Zone X-3b Archery Hunt). This tag is valid **ONLY** during the prescribed archery season and **may not** be used to hunt deer during the general zone season, even if using archery equipment.

To hunt deer during the general season (rifle) in Zone X-3b, a hunter must possess a Zone X-3b tag. This tag is valid **ONLY** during the prescribed general season for that zone. These tags **may not** be used to hunt deer during the Hunt A-6 archery season, even if using archery equipment.

This zone is a popular deer hunting area with lower tag quotas. Any additional deer hunts in Zone X-3b are listed in the Additional Deer Hunts section, below. Typically, tags for Zone X-3b, Hunt A-6 and any additional deer hunts are in high demand and distributed through the Department's Big Game Drawing held in June. To hunt in this area, hunters must plan ahead and are encouraged to submit hunt applications by late May. For information regarding deer tag application procedures and obtaining a deer tag for this area, see the 2008 Hunting Digest, available on-line at:

<http://www.dfg.ca.gov/licensing/biggame/biggamebook.html>

Successful hunters are reminded to immediately fill out both portions of the tag and permanently mark the date of kill; attach the tag to the antlers, or ear if antlerless; have the tag validated and countersigned; and return the completed report card portion to the Department within 30 days of taking a deer.

LAND OWNERSHIP/PUBLIC LAND OPPORTUNITIES

Zone X-3b contains a mixture of both public and private lands. Remember you must obtain and have in your possession written permission to hunt on private property. Hunter trespass laws are strictly enforced. Public lands within Zone X-3b are administered by the Modoc National Forest (USFS) and the Bureau of Land Management (BLM). For information regarding these lands contact the following:

USFS Offices:

Modoc National Forest, 800 West 12th Street, Alturas, California 96101 (530-233-5811)

BLM Offices:

Alturas Field Office, 708 West 12th, Alturas, CA 96101 (530-233-4666)

Surprise Field Office, 602 Cressler Street, Cedarville, CA 96104 (530-279-6101)

Wilderness lands have been established within the Modoc National Forest. The South Warner Wilderness Area is accessible by hiking and pack stock. Public use of the wilderness is regulated by permit. Information on wilderness area restrictions and Wilderness Permits may be obtained by contacting the Modoc National Forest.

In Zone X-3b and other zones throughout California, additional deer hunting opportunities may exist on private property licensed through the Department's Private Lands Management Program (PLM). For more information on the PLM and to obtain a list of participating ranches, go to the following link:

<http://www.dfg.ca.gov/wildlife/hunting/plm.html>

Reminder: State Game Refuge 1-C and the Modoc National Wildlife Refuge are closed to hunting.

MAPS

For general maps detailing individual zone or additional deer hunt boundaries, go to the following link:

<http://www.dfg.ca.gov/wildlife/hunting/deer/zonemapsinfo.html>

The most comprehensive map of the area is the Modoc National Forest map. USFS maps are available at all USFS offices or you can contact the USFS Pacific Southwest Regional Office at: 1323 Club Drive, Vallejo, CA 94592 (707-562-8737).

BLM surface management maps may also be useful. However, because Zone X-3b covers such a large area, several maps are needed to depict it entirely. BLM surface management maps for Zone X-3b include the Burney, McArthur, Mount Shasta, Tule Lake, and Yreka maps. You can purchase these maps at BLM district offices or you can contact the BLM at 2800 Cottage Way, Suite W-1834, Sacramento, CA 95825 (916-978-4400).

U.S. Geological Survey (USGS) topographic maps, are very helpful, especially for topographic features that are not displayed on USFS or BLM maps. USGS maps may be available from sporting goods, backpacking or engineering stores or you can contact the USGS directly at: Rocky Mountain Mapping Center, Branch of Information Services, Box 25286, Denver, CO 80225 (888-ASK-USGS).

ACCESS/MAJOR ROADS

There are extensive tracts of public lands with excellent access in Zone X-3b. Primary roadways in Zone X-3b are State Highway 395 (western X-3b), State Highway 299 (east-west X-3b), and County Road 1 (eastern X-3b). Many County, USFS and BLM roads branch off of these primary roadways providing access to public lands.

WEATHER CONDITIONS/TRAVEL TIPS

The weather in this region is highly variable so BE PREPARED. The weather is usually quite hot and dry, but early storms are not uncommon. Snow fall will be a rare occurrence with these storms but heavy rains can make many roads very difficult, if not impossible, to travel. You should be prepared with appropriate clothing and equipment for a variety of weather conditions.

Zone X-3b covers a large geographic area. The terrain can be very steep and rugged and vegetation can be extremely dense. As you should do in all remote areas, hunters are urged to bring a shovel, a good spare tire, extra water, etc. Use care when operating any vehicle off-road and check with the BLM or USFS for rules and regulations regarding vehicle and travel restrictions in the area. Horses can be useful in some portions of X-3b. However, remember that it may be necessary to carry supplemental horse feed into the back country. Contact the local USFS and/or BLM office for more information regarding forage conditions for livestock.

CAMPING

There are numerous designated campgrounds within Zone X-3b. The facilities available at these campgrounds vary from primitive campsites to campsites with running water. Most campgrounds are clearly marked on USFS and BLM maps. Camping outside of designated campgrounds is usually permitted on BLM and USFS lands. However, during fire season special regulations may apply and it will be necessary to obtain a fire permit from the USFS or BLM. You can also check with the California Department of Forestry and Fire Protection office for rules in specific areas.

Please, DO NOT camp or hunt for prolonged periods near water sources important to wildlife and livestock. Remaining for over 30 minutes and within 200 yards of an artificial water source including guzzlers or horizontal wells on public lands within California is a Fish and Game violation (Title 14, Section 730). You can pack water, wildlife can't.

HARVEST INFORMATION

Information on deer harvest for this area is available in tables contained in the annual Deer Kill Reports available on-line at: <http://www.dfg.ca.gov/wildlife/hunting/deer/deerhunt.html> The most useful tables for the purposes of planning or applying for hunts in this area are Tables 1b (Harvest and Success Information), 2a (Antler Class Information) and 10b (Drawing Statistics).

HERD CONDITIONS AND HABITATS

The deer population in Zone X-3b is considered stable to slightly declining, yet considerably below levels seen in the late 1960's and 1970's. As with most deer herds in California and other western states, the long-term population trend has been on a steady decline since the 1960's and 1970's. These long-term declines have been due to land management practices that have precluded fire, resulting in changes toward more mature and less diverse habitats, and reduced quality and quantity of deer habitats. Short-term fluctuations in deer populations are usually attributed to weather events that affect forage production.

The subspecies of deer inhabiting Zone X-3b is the Rocky Mountain mule deer. Deer in Zone X-3b are considered migratory. Deer in this area generally move to higher elevations in late spring and will remain until the first heavy fall storms force them down below the snow line. This downward movement often occurs during the hunting season, so hunters should be prepared to move to lower areas later in the season after stormy weather.

The vegetation is highly varied throughout Zone X-3b ranging from low sage, sagebrush, bitterbrush, aspen, juniper, hardwood-conifer and conifer to alpine habitats. Generally speaking, deer populations in this area respond favorably to vegetation disturbances that enhance brush species (wildfire and timber harvesting). Riparian areas (areas along watercourses), recently burned areas or clear cuts that have re-sprouted with brush are good areas to hunt. Areas where oaks are producing acorns may also attract deer. Typically, lower densities of deer are observed in the more densely forested areas or in older, more decadent brushlands.

HUNTING TIPS AND WHERE TO LOOK FOR DEER

Successful hunters often spend a considerable amount of time scouting pre-season, locating individual or groups of deer, recently used deer trails, and feeding and bedding areas. You may not see many deer from the roads in this area and generally the more successful hunters do more hiking to locate deer. Binoculars and/or spotting scopes can be very helpful for locating and identifying deer at greater distances. In general, attempt to hunt areas that are away from other activities such as concentrations of hunters, vehicles, and/or livestock.

Generally, the best hunting is near stands of bitterbrush, mountain mahogany, aspen, or tall sagebrush. Historically, some of the more popular and productive areas in Zone X-3b include: Alaska Canyon, Annie Mountain, Bald Mountain, Benton Meadows, Bidwell Mountain, Blue Lake, Buck Mountain, Corporation Meadow, Cottonwood Flats, Cow Head, Davis Creek, Deep Creek, Fandango Pass, Hat Mountain, Joseph Creek, Lassen Creek, Likely Tables, Little Juniper, Mahogany Ridge, Patterson Meadow, Pryor Peak, Sheep Rock, Soldier Creek, Sugar Hill, Thomas Creek and other areas within the South Warner Wilderness.

For additional information about deer hunting in California, see the Department's publication "Guide To Hunting Deer In California" at the following web site:

<http://www.dfg.ca.gov/wildlife/hunting/deer/docs/deerguide.pdf>

ADDITIONAL DEER HUNTS

In 2008, there are no additional deer hunts scheduled in Zone X-3b.

2008 ZONE AND ADDITIONAL HUNT SPECIFIC REGULATIONS

§ 360. Deer.

Except as otherwise provided in this Title 14, deer may be taken only as follows:

(b) X-Zone Hunts.

(4) Zone X-3b.

(A) Area: In those portions of Lassen and Modoc counties within a line beginning at the east shoreline of Goose Lake and the California-Oregon state line; east along this state line to the California-Nevada state line; south along the California-Nevada state line to the Clarks Valley-Red Rock-Tuledad Road (Lassen County Roads 512, 510 and 506); west along the Tuledad Red Rock-Clarks Valley Road to Highway 395 at Madeline; north on Highway 395 to Westside Road (Modoc County 48) in Davis Creek; west and north along Westside Road to the south shoreline of Goose Lake; east and north along the south and east shoreline of Goose Lake to the point of beginning.

(B) Season: The season in Zone X-3b shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 845.

§ 361. Archery Deer Hunting.

(b) Archery Hunting With Area-specific Archery Tags. Deer may be taken only with archery equipment specified in Section 354, only during the archery seasons as follows:

(5) A-6 (Zone X-3b Archery Hunt).

(A) Area: As described in subsection 360(b)(4)(A).

(B) Season: The archery season for hunt A-6 (Zone X-3b Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 95.

(c) Archery Hunting with Archery Only Tags. Deer may be taken only with archery equipment specified in Section 354, during the archery seasons and general seasons as follows:

(1) Number of Archery Only Tags Permitted. A person may obtain an archery only tag using a one-deer tag application and a second archery only tag using a second deer tag application.

(2) Zones in Which Archery Only Tags are Valid. An archery only tag is valid for hunt G-10, and during the archery season and general season in all zones except C-1 through C-4 and X-1 through X-12.

(3) Areas: As described in subsections 360(a) and (c).

(4) Seasons: The archery season and general seasons are provided in subsection 361(a) above and in subsections 360(a) and (c).

(5) Bag and Possession Limit: All bag and possession limits per zone are the same as those described in subsections 360(a) and (c).

(d) Hunting Area Limitations. Archers not in possession of an archery only tag may hunt only in the zone, zones, or areas for which they have a general tag or an area-specific archery tag. (Refer to subsection 361(c)(2) for zones in which archery only tags are valid).

(e) Crossbow Prohibition. Except as provided in subsection 354(j), crossbows may not be used during any archery season or during the general season when using an archery only tag.

**** GOOD LUCK! ****
